

Specification

Item	For configure-1	For configure-2	For configure-3
Motor type	DC motor	DC motor	DC motor
Rated power	5000W	8000W	10000W
Maximum power	9200W	13100W	15600W
Maximum speed	110KM/H	130KM/h	150KM/h
Range(AT 45KM/h wtth)	110KM	150KM	180KM
Battery voltage	72V	72V	72V
Battery capacity	80AH	108AH	160AH
Charging time	6-8h	6-8h	6-8h
Battery type	Lithium battery	Lithium battery	Lithium battery
Brake system	CBS	ABS	ABS
Front tire size	110/70-17	110/70-17	110/70-17
Rear tire size	140/70-17	140/70-17	160/60-17
Vehicle dimensions(WHD)	2070*775*1120 (mm)	2070*775*1120 (mm)	2070*775*1120 (mm)
Net weight without battery	115kg	126kg	133kg
Maximum load capacity	290kg	318kg	338kg

Regularly Checking and Maintenance

Check list	Everyday	60days	180days
1. Air pressure		▲	▲
2. Brakes		▲	▲
3. Horn			
4. Charger and power supply cord			
5. Screws, timing bar, swerving sets		▲	▲
6. Brake gasket		▲	▲
7. Rim		▲	▲
8. Frame, front fork		▲	▲
9. Bell, rear reflector		▲	▲

Washing Instruction

- Never wash with high pressure watering column, the inside electronic parts and circuit will be soaked to stop working
- Wiping with neutral lotion for painting area and outer surface then clean with dry cloth
- Lubricating oil for metal components
- Never lubricating the brake gaskets, rims or tires

Trouble Shooting and Disposal

NO.	Trouble	Possible reason	Solution	Remark
	Power on but no indication on meter, no starting	Fuse burnt	Replace fuse	Cut off power before replacing to avoid short circuit. Or repair in nominated maintenance station if it usually happens.
		Battery cord disconnect	Connect the cord	
	Power on but no indication on meter, no starting	Low battery voltage	Charging to full	
		Wrong position	Return the brake's position	Power connector will be reset after a while
		Timing cord disconnect	Fix in nominated maintenance station	
		Wire disconnect		
		Lack of air pressure	Inflating	
		Improper charging	Check plug and charger connection	
	Shorten range after full charging	Charger malfunction	Fix in nominated maintenance station	Never open the charger personally because of high voltage inside, get help from technician.
		Battery out of Usage life	Replace	

Warranty

1. Scope and Duration of the Warranty

Item no.	Parts Name	Term of Service	Service Content
1	Motor Parts	24 months	The user will be given a free replacement if there is a failure within the first year purchase, and a free warranty will be given if there is a performance failure within the second year (man-made water ingress is not warranted) (The rim of the aluminum wheel of the whole vehicle is not within the scope).
2	Battery Parts (Lead Acid)	3 months	If the battery capacity of the whole vehicle is attenuated by more than 50% (except for human factors), then a new battery can be replaced within 6 months, and the maintenance battery can be replaced within 7 to 12 months (except for special batteries).
3	Battery parts (lithium battery)	24 months	If the battery capacity of the vehicle is attenuated by more than 80% (except for weather and human factors), then a replacement of the new battery within 1 year, and free maintenance within 2 years (except for special batteries).
4	Frame	12 months	Soldering, desoldering, and fracture can be replaced, but no replacement due to impact or unauthorized modification.
5	Front Wheel	6 months	Cracks, collapsing welding, and serious bearing can be replaced, but it will not be replaced due to improper use and impact.
6	Tyre	3 months	The exposed line and bulge caused by quality problems can be replaced (normal wear and tear, man-made damage will not be replaced).
7	Rear armrest (including rear hanger) Support feet (single support, double support)	3 months	Soldering, desoldering, and fracture can be replaced.
8	Seat Cushion (Saddle)	6 months	Leather aging, broken, broken bottom plate can be replaced. Overweight and artificial damage will not be replaced.

Warranty

Item no.	Parts Name	Term of Service	Service Content
9	Front Fork (front shock absorber)	6 months	Soldering, desoldering, fracture, serious oil leakage can be replaced, but not due to human factors.
10	Lamps, Mirrors	3 months	The concentrating effect is not good, and the natural rupture can be replaced (bulbs are not included in three guarantees).
11	Central Axle, Saddle Tube	3 months	Breakage or deformation caused by quality problems can be replaced, but not caused by human factors or impact.
12	Flywheel	3 months	It can be replaced due to quality problems, and it can not be replaced due to lack of oil or improper use.
13	Controller, Charger	12 months	An irrecoverable performance failure can be replaced.
14	Handlebar, Rear shock	3 months	Soldering, desoldering, fracture, serious oil leakage can be replaced, but not due to human factors.
15	Flasher, Horn, Anti-theft Device, Set Lock, Instrument, Brake Lever, Speed Control Lever	6 months	An irrecoverable performance failure can be replaced.
16	Front Drum Brake, Rear Drum, Brake Front Disc Brake, Rear Disc Brake	6 months	Due to material cracking and oil leakage, it can be replaced. Brake fluid and brake pads are not

Warranty

2. The Scope and Content of Warranty Exclusion

Item no.	The Scope and Content of Warranty Exclusion
1	The user's failure to use, maintain and adjust in accordance with the provisions of the "Instruction Manual".
2	Damage caused by user's artificial damage (cutting the thread), self-modification, disassembly and repair, self-decomposition, original damage of use failure, failure of technical identification and analysis.
3	Malfunctions caused by user's use, improper storage or accident.
4	Vehicles without warranty cards or cards, invoices, and items that do not match.
5	Parts that do not belong to the "Scope and Duration of the Warranty Parts" are not covered by the warranty.
6	Self-dismantling parts outside the scope specified in the instruction manual.
7	Damage caused by force majeure (such as flood, fire, earthquake, lightning strike, chemical corrosion).
